The District Attorney advised the witness not to arrwer, as the question was an improper one, and the United States officers, in these confidential relations to each other, were example from answering such questions; the cause of justice equiring it.

The witness declined to answer, and the Commis-

The question was then put in other forms, with the

The question was then put in other forms, with the same result.

Cross examination continued—I consider I arrested the whole party; I had conversation with De Castro on board.

Direct resumed—I found the ship's papers, except the manifest; all that I had were banded to the District Attoracy when Mr. Da Casta left the vessel; he had some of the papers which I had looked at; the paper which I saw was, I think, a power of attoracy from De Cunha to, De Costa; I am not sure that it was signed by Da Cunha, but I think it was; on the day of the sesime, in consequence of certain information. I was led to believe that De Castro had some papers accreted on his person; I limited him into the cabin, and stated that I had been told the Copysin had sanded him some papers; he said he had none; I told him I must search him, and I did so, but found no papers on him appertaining to this case; I then told him to tell Da Costa that I may see search him, and I did so, but found no papers on him appertaining to this case; I then told him to tell Da Costa that I have spoken of from his pocket; at that time I had no process now warrant against the persons nor the vessel.

Here the District Attorn-y arose, and said that De Castro, who was present, had invulted him by shaking his hand at him in a threatening and insolent manner. He asked that the mat either apploping out the District-Attorney to his friend. Mr. McKeon said it was due to his effice, if not to himself, that the mat either apploping out the District-Attorney to his friend in Lassilla the same series plotting out the District-Attorney to his friend his, devould have put him out of the room, and under no circumstances would be permit it. The District-Attorney asked that the facts be represented to the Court.

Adjourned to 11 o'clock to-day.

Surettes.—Manuel B. De Cunha Reis, of the firm of Fignaniere, Reis & Co., and Hanry M. Bearnes, a cooper in Old Slay, who testified in Lassilla's case that he supplied the Hoatio with water-casts, are the sureties of Mr. Da Cunha on his

COURT OF COMMON PLEAS—SPECIAL TERM—JUNE 17.

Mills agt Forbes, &c

Brady, J.—The Code sec, 339 provides that when an appeal is perfected as provided by sections 335, 336, 837 and 338, the Court may in its discretion dispense with or limit the security to be given by sections 335, 336 and 338, where the appellant is an axcentor, &c., and thus, in effect, absolves the executor from the obligation to give security on an appeal where a good reason is assigned by him for such indulgence. It is true that the section referred to relates to appeals to the Court of Appeals, but sec. 349 provides that on an appeal to the Court of Appeals, but sec. 349 provides that on an appeal to the Court of Appeals of the Court of Appeals of the court of Appeals as to security or otherwise as may be just such security not to exceed the amount required on an appeal to the Court of Appeals. A statement of a want of assets, sufficient to pay the judgment, would no doubt be regarded as a good reason why the security should be limited at least to the amount of assets disclosed, applicable to the payment of the judgment appealed from. The object of the Legislature, in my opinion, was to provide for just such a case as this, and to prevent the appellant executor from avoiding his boad by assuming, in the avenue of the power of the Court, to limit his security, that the Legislature rever designed that he should pay the judgment without regard to assets in his hands. They have by sections 339 and 348 provided against that, and thus silenced him in that respect.

and 348 provided against that, and thus stienced him in that respect.

I think the manner in which the judgment is to be paid does not affect the primary liability of the sureties to the undertaking, although a compliance with the judgment in manner and form expressed may discharge them from all obligation. And a defense, alleging the application of all the property of the testator as directed by the judgment, wou'd be good! I think, although such property was in fact insufficient to discharge the judgment, and for the reason that the sureties undertake that the appellant will pay the judgment pronounced or affirmed by the Appellate Court, and cannot be called upon to do more than their principal was by such judgment ordered to perform. But, upon domurrer, such a view of the question cannot be available. Giving an undertaking with out application to the Court as to security, and demurring are admissions of the possession of assist sufficient to pay the judgment in the manner directed, and antities the defendants to judgment.

I consider all the facts necessary to establish the defendants' liability slieged in the complaint, and that the demurrer is not well interposed. The defendants, however, have leave to answer in twenty days, on payment of costs.

Ordered accordingly.

UNITED STATES DISTRICT COURT-Juxe 19-Before
Judge BETTS.
The District Court adjourned, without doing any
business, to Tuesday next.

COURT OF GENERAL SESSIONS.

In this Court, yesterday, William Eunis was tried for misdemeanor, in preparing for sale the carcass of a diseased cow. It was shown that he had dressed it, and placed it in a cart ready to take to market. He had been watched and was taken into cattody. The Jury found him guilty Sentence George Stack convicted of assault and sattery with intest to kill his wife was sentenced to the S ate Prison for two years. Wm. Heiseer, John Heiser, and John Marsine, Placed guilty to riot and turnuit, and were fined \$5 each.

firm of Yelverton, Walker & Sniffen, aged 38 years and 6
wonths.

DEATH OF A SLAVE FROM CRUEL TREATMENT. DEATH OF A SLAVE FROM CRUEL TREATMENT.—
We regret having to record one of those cases which
show to what a depth of depravity and brutal conduct
human nature sometimes reaches. It is the death of a
slave boy, Charley, aged about 14 years, from the
cruel treatment of his mistress, Elizabeth Ward or
Woods. The considerations that the victim was but a
boy, and helpless from his position, and the torturer a
woman, highten the enormity of the crime. In contrast, also, to "the almost invariable kind treatment
which colored children receive, it appears unusually
criminal.

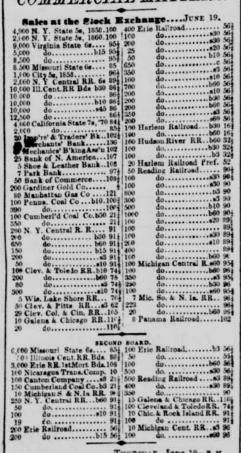

The boy was discovered the 13th ult. in a house on The boy was discovered the 13th all, in a house on St. Peter street, tied up in a cruel manner, and looking almost starved; he was at once conveyed to the jail, every attendance given him, but he was too severely injured, and expired yesterday. The examination of the body showed his back dreadfully excoriated, the wrists cut deeply with the cords, one or two ribs broken, and an abscess in the right side. The result of the Coroner's inquist and investigation was the following verdict:

"After a post mortem examination, the Jurors do say that he came to his death from injuries inflicted by,

"After a post mortem examination, the Jurors do say that he came to his death from injuries inflicted by, and the cruel and inhuman conduct of, Elizabeth Ward, alias Mrs. Woods, to whom he belonged, at different times, in the house No. 250 St. Peter street, Second District." [N. O. Delta, June 13.

The Ericseon brings the news that the Royal geo graphical Society have presented the Royal premium for this year (a massive gold medal) to Dr. Kane for his Arctic researches. This is the fourth time that an American has received this medal within twelve of fifteen years. The first was presented to the Rev. Dr. Robinson for his researches in Palestine; the second to Col. Frement for his Western explorations; the third to E. G. Squier, eq., for his researches in Central America; and now the fourth to Dr. Kane.

COMMERCIAL MATTERS.

THURSDAY, June 19-P. M. There was a little reaction in Stocks at the morning Loard, which, however, was soon recovered from The Bears, supposing that after the rise of the last day or two there would be a decline, were free sellers.

After the Board, however, the demand for the leading fancies were considerable, and better prices prevailed. At the Second Board the improved feeling continued, and up to the close, in the street, Erie continued to advance, and left off at 561 2 561 an improvement of i P cent from yesterday, i P cent from the lowest point of to-day. The transfer of this Read continues unexpectedly large. The receipts to day were \$29,000, and for the past four days \$114,000. They are new \$7,000 ahead of the same period in May, when, according to the precedent of previous years, they should be some \$40,000 behind. June always shows com iderably smaller receipts than

generally been able to borrow it freely, find it now very difficult. Hudson River improved to 321; Centra closed at 911 @911; Panama was firm at 102, but not active. For Lor g Dock Company stock 1001 contines to be bid, but brings no stock. Large gangs of laborers are at work upon the tunnel through Bergen Hill, at each end, and are also sinking three shafts along the line. The will soon be working on eight faces. Nicaragus was better to day, and closed at 10. It is difficall to learn what is going on in the affairs of this Company, but its friends mysteriously intimate that everything will be all right sooner or later. It is believed that matters could be arranged if any agent was here fully authorized to act for Walker, and if our Government would give any pledge to maintain the Company in its rights under such arrangement. The Western shares were nearly all better at the close. The approach of the mid Summer dividend period has a favorable influence. With 4 or 5 P cent off present prices there stocks will look cheap, and will, it is supposed, work back within a short time to present prices, dividend off. Galena improved to 110]; Michigan Central, 961; Michigan Southern, 961; Cleveland and Toledo, 74; Cleveland and Pittsburgh, 62| bid; Milwaukee and Mississippi, 83 bid; Chicago and Rock Island, 91; Wisconsin Lake Shore 70; &c. In Railroad Bonds the business was mainly confined to Illinois Central, which closed at 861, a little improvement on the merning price. Erie 1st Mortgage sold at 106; New-York Central 6s, 89½. In State Stocks there is not much charge. Missouris sold at 85½; Virginias, 952 2951; Californias, 1870, 851, &c. The nomination of Col. Fremont was well received in the street, and his election, it was universally conceded, would clear the financial horizon of the political clouds which now

harg about it.

The business in Exchange is small, and prices are as before quoted.

Freights are firm. To Liverpool, 52,000 bushels of Grain at 6 27d , in bulk and ship's bags; 10,000 bbls. Flour at 2s. 41d@2s. 6d.; 100 tuns Fustic at 16s.; some Cotton at 3-16d. To London, 5,000 bbls. Flour at 2s 9d @3s, and some grain at 9d. ToHavre, 4,000 bushels Wheat at 121d., and a small lot of Flour at 62 lc.

The business of the Sub-Treasury was: Paid, \$159, 893 48; received, \$188,519 40; balance, \$6,249,906 07; paid for Assay Office, \$13,337 39; paid on Disburs-

ing Checks, \$42,687 98.

Breadstuffs are again better, with a good demand or consumption and shipment. The sales are 17,000 bbls., and the low grades show an improvement of 10c. & bbl. State brands are \$5 10 2 \$5 55, Western \$5 50 2 \$6 50. Wheat is again higher, 5c. \$\P\$ bushel. with good shipping inquiry; sales 83,000 bushels, including White Southern, at \$1 75@\$1 85; Wisconsin Club, \$1 37]; Chicago Spring, \$1 25 3 \$1 30; White Indiana, \$1 40@\$1 44; Red do , \$1 35@\$1 44. The transactions in Corn are moderate, and the market is a little easier; sales at 52 2 60c. There is not much doing in Pork—Mess is a trifle lower, but Prime is firm; sales at \$19 and \$16 37 2 \$16 50. Cut Meats, Lard, &c, are in fair demand, with an upward tendency. Groceries are without much change; Coffee and Sugar are rather quiet, but well sustained. Molasses has improved, with fair isquiry. The Cotton market is heavy under the foreign news, and the mar-

ket too unsettled for quotation.

The Continental Bank has declared a semi-annual

dividend of 4 \$\psi\$ cent, payable July 1.

The Michigan Central Railroad Company has declared a semi-annual dividend of 5 \$\psi\$ cent, payable July 1, to the New-York stockholders at the Farmers'

Loan and Trust Company.

The Milwaukee and Mississippi Railroad Company has declared a semi annual dividend of 5 & cent in eash, payable the first Monday in July. The business of the six months, we understand, leaves a surplus after this dividend of \$40,000, making the earnings of the six months equal to 9 P cent on the stock. This is one of the most promising roads of the West, and last year divided 17 \$\psi\$ cent in dividends. It is now working 125 miles from Milwaukee toward the Mississippi River, but the above earnings were on 103 miles from Milwaukee to Madison.

The earning of the La Crosse and Milwaukee Rail-

for the second week in June were. Freight Pametgere. Mail	4,528 4,848 50	58 74 14
Total	11,927	46
	24 241	46

The above earnings are on only 61 miles of road, and are beyond the anticipations of the friends of this en-terprise. The connecting roads, the Horicon and Fond du Lac, are now well supplied with equipage, of which they have heretofore had an insufficient quantity, and a still better result is looked for during the

coming season.

The earnings of the Wisconsin Lake Shore Road in May was \$22,020 on 40 miles of road. The earnings of the first two weeks in June, are in about the same proportion. The dividend will be four P cent, with a fair surplus.

The receip's of the Stonington Railroad Company in May were:

Increase..... \$8,970 32 The earnings in May of the Catawissa, Williams port and Erie Railroad Company, were larger than they have been in any previous month, viz:

set gers from the 1st to the 14th of June:

Increase..... \$2,431 14 The Belleville and Illinois Railroad Company are about to offer \$100,000 for their convertible 7 & cent first mortgage Bonds, redeemable in 1873, through Mr. Simeon Draper. This is the balance of an issue of \$600,000, all the rest of which having been sold in Europe. The payment of principal and interest is also guaranteed by the Terre Haute and Alton Railroad Company, and by a lien on 1,000 acres of coal land near St. Louis. The Benevant finished one, and is running profitably. The Company finished one, and is running profitably. The Company near St. Louis. The Belleville and Illinois Road is a has a stock capital paid up of \$600,000, and the be indebtedness, including the present offering, is \$1,100-000, of which \$600,000 are a first, and \$500,000 a

see, nd mortgage.

The Wabash Valley Road, now the Toledo, Wabash and Western Railroad, was opened to La Favette yes-May, but the present June promises to be, with an allowance for the smaller number of working days, about as large as May. Reading closed at 90 bid, which is a decline on yesterday, but better than the morning price. A marked feature of the market is the scarcity of Eric cash stock. The shorts, who have

but on the let of August, attice will be reached, a point of much importance. The following is a copy of

a telegraphic distracts received this morning:

"The Wab ash Valley Railroad was opcoded yesterday to La Payette, completing 202 miles from Toledo,
(West), and leaving only 40 miles (on which 80 P cent
of the work is already done) to be completed."

A meeting of stockholders of the late Knicker-

bocker Bank was held last evening to consider the alleged exorbitant bills of the Counsel to the Receiver-\$10,020 86 having been paid him from the Bark, and \$8,749 95 from the Trust Company. Resolutions were adopted asking the Receiver to appoint other coursel, and meanwhile Mr. Shapnon was sprointed counsel to protect the interests of the stock-

A correspondent writes from Weston, Mo.:
The excite net which prevails here and elsewhere on the border of Kausas has materially affected trade, and I rearest to say that many of our business men, who have been "first in war" are reaping the benefit of their own folly and faraticism.

The Cincinnati Gazette states that David Clark, Treasurer of Montgomery County, Ohio, is a defaulter to the amount of \$45,000. He hopes to be able to ac-

court for about half of this large sum.

The following is a record of the business at the Custom-House, at the Suspension Bridge, Niagara Falls,

Treasury has decided that foreign pearl barley is du-tiable as a manufactured article. The following is a copy of the Secretary of the Treasury's letter to the

copy of the Secretary of the Treasury's letter to the Collector of the Port of Chicago:

"The reciprocity treaty provides for the admission to free entry of 'grain,' 'flour' and 'breads'uffs.' By 'grain' is understoood grain in its natural state, not manufactured; and by 'breadstuffs,' flour and meal. 'Pearl barley' is not a grain, understood as such in the treaty; nor is it a 'breadstuff,' as flour and grain, but is clearly a manufacture from a grain, being 'barley deprived of all its investments, and afterward 'rounded and polished in a mill,' (see the United States Dispensatory, page 390); therefore, in the opinion of this department, 'pearl barley,' not being considered a 'grain' or a 'breadstuff,' provided for as free by the reciprocity treaty, is liable to duty."

The following is a comparative table of the growth

mines is from the Circular of Messrs Dupee, Perkins &

mines is from the Circular of Mesers Dupee, Perkins & Sayles of Boston:

PITTSBURGH AND BOSTON (CLIFF).—This stock has advanced to \$170, with none for cale under \$275. It is understood that the Aurust dividend will be \$20 P share. The yield for May has not been received.

Minnesota - Sales have recently been made at \$90 (ex-dividend of \$10), and apparently but few shares are on the market. The product of this mine surpasses the most sanguine expectations of its managers. Independent of its enormous value, no business organization of any description has ever displayed more financial skill or economical management.

25. The Winter essent was devoted to opening the mine, preparatory to stoping during the Summer. The Scuth ve n of the Mu nesota Company is proved on the Rock'and Territory, and the mining grounds of the old and new workings are connected by an adit level. A similar show of masses speers on the territory of one as on the other. Apparently there is no reason why the Rockiand should not, at no distant day, be equal to the Minnesota.

FLINT STELL RIVER.—This Company, an effect from the Minnesota, has been at work two years. Recently the Minnesota.

FLINT STELL RIVER.—This Company, an effect from the Minnesota have been taken to prove the value of the lode. The assessments hitherto amounting to \$20,000, and sales of stock on the Company's account for \$10,000 more, are equal to on outlay of \$15.00 phase and Rockiand Companies.

Isle ROYALE.—The product of the Winter Season was 114 tuns, leaving the Company a surplus of cash assests over every liability of \$45.000. The yield for May was 25 tuns. The mine improves in depth, and pays not less than \$4,000 profit per month.

PLEMABLC.—This location is on the northern side of Fortage Lab.

mirroves in cepts, and pays not less than \$4,000 profit per month.

PEWABIC.—This location is on the northern side of Portage Lake Its territory consists of 320 acres of mineral lands. The metalliferous deposits are of a character similar to those of the list Royale Cempany, and have produced, principally from the sinking of two staffs on the vein, (one of 80 feet, and another of 63.) and drifting some 85 feet on the first level, 40 tuns of barrel copper. If this extraordinary development holds good through the Summer's working, a mine will be laid out extensively without further assessments. The stock is in demand at quo-tations.

without further assessments. The stock is in demand at quotations.

TOLTRE—There was no product in April. In May, 11 tuns of barrel and mass work were raised. They had about 1,000 tuns of stemp work on hand June 1, which it is supposed will produce not less than 10 tuns of copper. The general prospects of the mine are represented by the Committee of Investigation as gradually improving. The transactions in the stock have been larger durit sthe pest month than in all the other mining shares.

COPPER FALLS—The mines yielded in May, 11 tuns, which paid the cost of production. The stock has advanced recently 75 cents per share. The annual meeting of stockholders was held on the 11th inst. The balance of liabilities over assets was stated to be \$12,275.79.

Markets.. CAREFULLY REPORTED FOR THE TRIBUNE

price.

HAV—A fair business doing for shipping at former prices;
sales of 500 bales at 55%55c. \$\frac{1}{2}\$ 100 Bs.

IEON—A fair inquiry for Scotch Pig. but the market is unsettled; sales of 130 tuns at \$30 500 \$32, according to brand and
